Handwritten musical score on ten staves. The notation is dense and appears to be a form of shorthand or a specific dialect of musical notation. The staves are numbered 1 through 10. The notation includes various symbols, including what looks like 'f' for forte, 'p' for piano, and 'ff' for fortissimo. There are also many notes, rests, and other musical symbols. The handwriting is very cursive and difficult to decipher. The score is written on aged, slightly yellowed paper.

The following is a list of the books in the library of the
 University of California, Berkeley, California, U.S.A.
 The books are arranged in alphabetical order of the author's name.
 The list is divided into two parts: the first part contains the
 names of the authors, and the second part contains the titles of the
 books. The books are listed in the order in which they were
 acquired by the library. The list is subject to change from time
 to time, as new books are added and old books are removed.
 The list is intended to provide a general overview of the
 library's holdings, and is not intended to be a complete
 inventory of the library's collections. For a complete inventory,
 please consult the library's catalog.

 wondering how you are getting on. I hope you are

Cometa

declarat, nimirum ut non dubitemus post cunctum Iudaicum regnum, nos qui gentes sumus, tenera populum electum, & filios Dei esse, si vere in Christum credimus.

Contigit hac deuastatio Hierosolymae anno secundo vespasianarum, uero post natum Christum anno sesuagesimo secundo, post passum Christum anno quadragesimo: a condito uero mundo anno quater millesimo trecento quinto. Et steterat hoc templum post seculum longum annis, quingentos nongenis sex annos.

Portenderunt hoc exitium multa horribilia signa, quae reserere non breuius studium non fuit. Toto scilicet anno supra templum ardens gladius insuscit id uero idcirco alicuius, ne qui temere contemnat signa, cum domine indignationis testimonia se se ferant, quibus ad penitentiam mouentur, ut ne avertatur uel minuantur diuina ultio id quod ex misericordia nominis domini contigit.

Circa haec tempora Iustus, Timotheus, Crescentinus, et ipsius Pauli Christum predicant. Ezech.

S. MACRINUS, Eucherius & Valerius in Alsatia ne quida uolunt euangelium annuntiare. Mos. Alexander mag^{us} & monis u. si uis omnes fideles, iuxta in suo nomine baptizandos reser.

 commandment that they should cause to be made
 and set up in the City of London a new bridge
 over the River of Thames from the Church of St. Dunstons
 to the Church of St. Martin in Vintria near the
 Church of St. Andrew Undershaft. And that they
 should cause the same bridge to be made of stone

 the same bridge to be made so wide that it should
 be able to bear the weight of a hundred carts
 laden with goods. And that they should cause
 the same bridge to be made so strong that it should
 be able to stand for ever. And that they should
 cause the same bridge to be made so fair that it
 should be a glory to the City of London. And
 that they should cause the same bridge to be

THE MONARCH. APRIL 1878

It is a very common mistake to suppose that the
the only way to get the most out of a book is to
read it all at once. This is a very great error.
The best way to read a book is to read it
a little at a time, and to read it often.
This will enable you to get the most out of
the book, and to remember what you have read.
It is also a good idea to keep a notebook
and to write down the main points of the book.
This will help you to remember the book
and to be able to discuss it with others.
The next time you read a book, try to
read it a little at a time, and to read it often.
This will enable you to get the most out of
the book, and to remember what you have read.
It is also a good idea to keep a notebook
and to write down the main points of the book.
This will help you to remember the book
and to be able to discuss it with others.

1. The first group of students, consisting of 10 students, was assigned to the control group. They were given the same assignment as the other groups, but they were not allowed to use any external resources.

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow \infty$. It is shown that the solutions of the system (1) tend to zero as $t \rightarrow \infty$ if and only if the matrix A is Hurwitz.

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation

1. The first step is to identify the key components of the system. This involves understanding the hardware, software, and data involved in the process.

1. The first step is to identify the key components of the system. This involves understanding the hardware, software, and data involved in the process.

11

$\frac{1}{x^2} = x^{-2}$

13. The first of these is the fact that the system is not in equilibrium. The system is in a state of non-equilibrium, and this is the first of the conditions which must be satisfied for the system to be in a state of non-equilibrium.

1. The first part of the document is a list of names and dates, which appears to be a record of some kind. The names are written in a cursive script, and the dates are in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right. The names are: John Smith, James Brown, William Jones, and Thomas White. The dates are: 1810, 1811, 1812, and 1813. The list is followed by a signature, which appears to be "John Smith".

dominum rem designarunt, id quod & consensu suo ratum. tum affectus Benedictus pontifex maximus.

Primum bellum gessit contra Gallos, qui praefiti iurisdictioni oblit, iterum Lotaringiam invadebant, capiti etiam urbibus aliquot: sed repositis Gallis Otho retinuit Lotaringiam.

Crescentij Interea temporis Crescentius, sub titulo cō-
Principis sulatus Romae usurpato sibi imperialis nomine,
Romani summam crudelitatem in Italia exercuit. Itaque
supplum ingentibus copiis accinctus Romam venit Otho,
ob adse- & capsum Crescentium, oculis etiam, naso &
etiam im- auribus truncatis, retrosum asino imposuit, et
persum. spectacula loco per urbem Romam circumvectum
suspendi mandavit.

Anno 987. Concilium Remense celebratur contra Ludovicum Gallia regem Caroli Magni stirps ultimum. Inde flamma Franciae ad Hugonem Capetum delatum, qui primus Gal-
lus Gallorum rex est creatus, an. 988. praesuit-
que rebus us & annis an. 9. neque diademate
neque insignibus regis usus.

DE ORIGINE ET IN- stitutione Principum Electo- rum in Germania.

DE septem viris, & primariis Heptarchis,
qui sibi deligendo Imperatorem Romano
Germa-

Germanicisque partes nunc sumunt, nihil penitus, ne verbo quidem uno, neque Hermānus, neque Romerius, neque Segibert⁹, neque Otto noster, Guntherus ve poeta, & ceteri quique proximi horum temporum grauisimi diligentissimique scriptores, ullam mentionem faciūt: profecto non omisuri tantam rem, si uel nostro seculo sunt, illa tempestate principes illi, constituendi Caesaris legem ac prerogatiuam accepissent. Res aliter est nempe longo post tempore instituta, filios semper patensibus, proximos sanguine, & affinitate, in demortuorum locū successisse, ab omnibus communiter Ducibus, Dynastis, Satrapis, Episcopis, Praesulibus, ciuibus, populo Italiae, Galliae, Germaniae designatum esse rectorem, usui tum rerum magister indicat. Ergo illos demum post sua Friderici secundis institutos & a Gregorio decimo Pont. Max. confirmatos esse compertum habeo. Ex Ioan. Auentino in Annalibus Bolorum lib. 5.

Onuphrius Panuinius Veronensis, in eo libro doctissimo, quem de Comitis Imperatoris inscripsit, hanc septem Imperij Electorum originem multis argumentis contra communem opinionem, proxime ad Ioannis Auentini sententiam, quando primum usurpata coepit, demonstrare conatur.

Adriani cum moreretur, dixisse eum: Non esse in terris
 papa mo- aliud vite genus calamitosius. **Papam** & san-
 tiem que- guine facere pontifi. acum, non esse Petro suc-
 vela. cedere, sed Romulo potius, qui propter Monar-
 chiam occidit fratrem. Testantur suis hæc ver-
 ba, pœnuisse eum capite constructis aduer-
 sus Casarem.

Post Adrianum ingens sibiisma exortum
 est. Cardinalium quidam Octavianum Ro-
 manum civem elegerunt, qui Victor dictus est.
 A quibusdam electus est Alexander tertius Se-
 nensis anno 1159. in ordine 178. Fredericus
 Barbarossa Octavianum ut verum pontifi-
 cem complexus est, sed interim tamen Synodu
 eam in disquirendum præcepit uter pontifex
 esset mansurus. Sed detrectans auctoritatem
 conciliorum Alexander, intra Galliam se con-
 tineret, & excommunicat Fredericum. Tandem
 presidio Italorum positus est papam Alexan-
 der, & Romam rediit, quò tum & Frederi-
 cus venit sed timore perulsus Alexander Ve-
 netias profugit, ubi pax tandem sancita est,
 & duravit Alexandri papatus an. 21 mens.
 11. Sed de his in historia Frederici plura di-
 cemus.

Fridericus Primus, Barbarossa dictus,
Cæsar Germanus XX.

ANno Christi 1152. Cæsar electus est Fri-
dericus primus huius nominis, cognomen-
to Barbarossa. Imperio præfuit annos 37. barossa
ex inclita Suenorum domo progenitus Dux
fuit, Corado Cæsaris ex fratre nepos, audacia,
fortitudine, & iustitia clarissimus princeps.
Quantum ego considerare possum eius res ge-
stas, videtur Fridericus, ut humanissimus
Suenus, equo animo ferre non potuisse iniurias
illas quibus à Romanis pontificibus affectus
est, & ex hac occasione contigisse arbitror ut
durius aduersus eos egerit.

In initio sui imperij Bavariam & Au-
striam in cõcordiam redegit, & Catulo Hen-
rico Saxonia Duci, Henrici generi Lotary fi-
lio Bavariam restituit. Henricum cognatum
suum Comitem Austriacũ creauit, & utrin-
que Ducatus terminos discriminales posuit.
Tunc primùm Austria Ducatus cepit. Porro Austria
Bavariam non diutenuit Henricus Catulus: Ducatus
nam deseruit Fridericum in Italia, Et in Ger-
mania novas factiones cõcitauit aduersus eũ.
Itaque propulsato postea Henrico per Fride-
ricum, Bavaria Ducatus donatus est Othoni

1. The first part of the paper is devoted to a review of the literature on the topic of the role of the state in the development of the economy. It is found that the state has played a significant role in the development of the economy in many countries, particularly in the case of developing countries. The state has been involved in the provision of infrastructure, the regulation of the economy, and the provision of social services. The role of the state has been particularly important in the case of countries that have experienced economic crises, where the state has been able to provide the necessary support to the economy.

D. O. M.

Proximè audimus fortissimos eos ex Hispania viros qui fuerant in propugnaculo nuper in dyris maiore ex imperio sui regis excitato, cum fortissime pertinacissimeque a Turca & mari & terra obsiderentur, ac iam de ceteris commeatibus, nec ullum nisi forte aliquot post menses subsidium assuturum sperarent, ne turpiter deditionem facere & ad extremas dānari cogerentur, de consilio strenuissimum Ducem qui illis praeerat, una voluntate omnes mori potius optauisse, quam crudeli & inhumanissimo hosti feruire. Ideo ex praesidio in quo coclusi & obsejti tenebantur, facta irruptione, dum viam ferro per consertos Turcas facere sibi conātur, fortiter dimicando simul omnes Iesu Christo Domino nostro, piè & sancte animas cadentes reddiderunt.

Ob frequentes ubique motus, qui quotidie cum de aliis rebus permultis, tum de religione maxime emergunt in populo Gallia, placuit regi Christianissimo Frāncisco eius nominis 2. ad se euocare sui regni principes & maximos quosque viros, quibus cum in sanctiore suo consilio de impendentibus malis, quid faciendū quidne fugiendum foret quò sua Gallia populus tranquillitas iam multū ubique labefactata in integrum restituatur, ac religioni vereque pietati

tati temerè neminem à multis seditiosis hominibus conuulsa pro dignitate consulatur, plenissimè & sanctissime communicatis adiuucent consilio decerneret. Regi autem imperio certatim serè omnes qui tunc vocabantur ut morem gererent, in aulam ad Fontenebleaum se conuulerunt. Quò cum peruenissent ad aliquot dies de re tota in sanctiore consilio presente Rege optimo cum Regina sapientissimis, matre scilicet & uxore, consultante. Duo sunt, ad populi nimirum tranquillitatem constituendam & religionem pie sacrendam, annuente cum toto illo principum uirorum sapientissimo consessu Rege ipso, facta decreta. Quorum unum fuit, ut omnes regni ordines ad Regem sub diem, 10. Decembris proximè futuri se reciperent sufficienter de vniuersis populi querelis edocti, ut illi referèntibus Rex ipsa moneri ritè posset, quò singulis reuelatis malis remedia applicerentur ea quæ minimum ledant, ac omnium tranquillitati maxime profint. Alterum uerò fuit, ut quò præsent sanctis Ecclesiis, nempe Archiepiscopi, Episcopi, & alij Domini gregis pastores, die 20. Ian. mox sequèntis ad Regem quoque se recipiant, de corruptis in religione moribus & aliis nonnullis hoc tempore maxime necessariis pie ac sanctè consultaturi. Hæc serè sunt, quæ

A Nino usque ad initium regni Medorum, qui primum ab Assyris discederant, sunt annis mille trecenti sexaginta. Et hunc ordinem sequuntur omnes qui perspexerunt postea, Diodorus Siculus, & Iustinus. Diodorus Siculus libro tertio sic scripsit. Similiter & ceteri reges ad Sardaniapalium usque triginta regnum tenuere, cuius tempora Assyriorum imperium, quod annos mille trecentos sexaginta duraverat, quemadmodum Ctesias libro secundo tradit, ad Medos transiit. Iustinus sic ait. Imperium Assyry, qui postea Syri dicti sunt, annos mille trecentos tenuere. Herodotus praetermisit aliquid interea dum collapsum Assyriorum regnum ad Medos pervenit. Quin et hoc puto, hos annos Ctesie ab initio Babylonis, hoc est, à Nemroth, non a Nino temporibus esse intelligendos.

Medi post defectionem ab Assyriis regnauerunt usque ad Cyrum circiter trecentos annos, quemadmodum Agathias ex Ctesia colligit.

Persarum regnum usque ad Alexandrum, duravit annos 238, teste Agathia, & Graeci scriptorum plerisque. Alexander & eius po-

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow \infty$. It is shown that the solutions of the system (1) tend to zero as $t \rightarrow \infty$ if and only if the matrix A is Hurwitz. This result is proved by the method of the variation of constants.
